STEP 2 - OUR TARGET

Debemos tener bien claro a
quién estamos dirigidos

OUR TARGET THE HEDONIST

The Hedonist Look & Feel

Appreciative, compassionate, and committed.

Experience, enjoy intimacy and pleasure.

Build relationships. Connect.

Help people find love and friendship through beauty, communication, and closeness.

Goal: Loving and committed relationships

La meta máxima de la vida es el placer de los sentidos.

Desire: Connection

Placeres - Felicidades de la Vida

Fear: Being unloved

Strategy: To be desired

La búsqueda del placer y el goce en todo sentido.

Examples: Hermès, Dior, Godiva, Chanel, Victoria's Secret, Hallmark

Asocia a la idea de **placer** con la idea de **bien**.

Individual, privado, social, espiritual o físico. Le

interesa sentirse bien y hacer sentir bien a los

demás para que juntos logren todo lo que se

proponen. Su pasión es compartir estos placeres

con todos los demás para llevarles momentos de

felicidad. El placer es recibir y dar: la felicidad.

La felicidad se comparte. Y el ánimo por darse

placer es insaciable, porque el cuerpo y la mente

siempre querrán más felicidad.

La meta máxima de la vida es el placer de los sentidos.

Human.
Real.
Natural.
Waves.
Deep.
Rich.

OUR TARGET THE HEDONIST

The Hedonist archetype in practice

Value aesthetic and appearance.

Drawn to premium brands.

Simply being functional isn't nearly enough.

Indulgent food and drink, as well as within the beauty, fashion, and cosmetics industry.

Expression - passionate, adjective rich language and word choices.

Visual appeal - Colors like deep red, pink, and gold.

The aim is to make customers feel attractive and accepted. Focus on how the product or service makes the customer feel. There is also a sensual aspect that the Hedonist represents. Anything that pleases the senses - beautiful things, enticing smells, indulgent foods - give joy and delight.

Levels of the Hedonist archetype

Each archetype can be experienced or expressed at different levels. The lower levels are less mature while higher levels are more developed.

Level 1 of the Hedonist archetype is pretty surface level, in terms of pleasure. This is where we find the more casual fling type relationships. Connections may be established, but they are not truly intimate or personal.

Level 2 of the Hedonist is about establishing commitment and forming deeper attachments with who and what we love/desire/enjoy. These are the relationships where we start to find fulfillment.

Level 3 is the most intense and brings us to a spiritual fulfillment. Wholeness and connection are both achieved and extended towards everyone.

UNA CUENTA DE NEGOCIOS VIA INSTAGRAM

Una Cuenta de Negocio tiene muchas ventajas adicionales que mejoran el uso como marca al tener más de 10,000 seguidores:

1. Se te toma con mayor seriedad.

Tener la capacidad de ofrecer incluso más información de forma inicial, así como información de contacto adicional, le ofrece a tu perfil comercial una imagen más profesional.

2. Obtienes acceso a análisis.

Echa un vistazo al desempeño de tus publicaciones, actividad de los seguidores y estadísticas sobre la audiencia.

3. Puedes agregar enlaces a tus historias de Instagram.

Acceso para enlaces que se deslizan hacia arriba en las Historias de Instagram.

4. Puedes aprovechar la publicidad de Instagram (facebook).

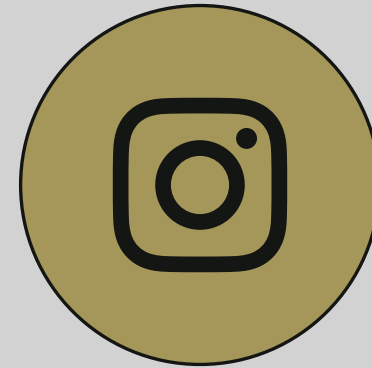

Campaña publicitaria- incrementa tu alcance y supera los retos que las marcas enfrentan con el algoritmo de Instagram, los anuncios pagados pueden ayudarte a llegar a las audiencias objetivo.

5. Puedes programar tus publicaciones de forma anticipada.

Obtendrás un panorama más completo del calendario de las próximas publicaciones y será más sencillo colaborar a todos los que contribuyen a este contenido.

6. Puedes etiquetar productos en tus publicaciones..

Considera que el 46 % de los usuarios hacen una compra después de ver un producto en Instagram, e incluso un porcentaje mayor realiza una investigación adicional sobre ese producto después de verlo, tiene sentido el facilitar este tipo de navegación tanto como sea posible.

12 COSAS QUE NO HAY QUE OLVIDAR EN INSTAGRAM

I. Crea tu marca registrada más creativa.

Existen muchísimas aplicaciones de Instagram (como VSCO) que pueden ayudarte a agregar un toque creativo a tus fotografías. Al utilizar consistentes degradados, colores y filtros, puedes hacer que tu feed se sienta más, ¿cómo decirlo?, más tū.

<https://www.instagram.com/p/BvpPR5aHIG/>

2. Incrementa tu producción de contenido.

3. Promueve tus publicaciones de Instagram en otras redes.

Utiliza herramientas de programación y publicación.

4. Enfócate en contenido centrado en la gente.

5. Experimenta con hashtags de la industria, tus clientes y de la marca.

Utiliza más hashtags para motivar el compartir y la promoción en nombre de sus seguidores. Aprovecha las herramientas de análisis de hashtags.

6. Etiqueta marcas, seguidores, eventos y ubicaciones siempre que puedas.

7. Publica contenido en el lugar en Instagram.

La marca ha cumplido con las expectativas de los clientes.

8. Colabora con influencers para extender tu alcance.

9. Instagram se alimenta de todo y de cualquier cosa que sea "nuevo".

Incluye divertidos sorteos o artículos en promoción.

10. Organiza un concurso/reto o sorteo.

Las marcas que organizan concursos logran un crecimiento de su audiencia hasta 70% más rápido que las que no.

Realiza la promoción de un sorteo único en Instagram para hacer la prueba y determinar si los concursos son algo que deseas intentar en el largo plazo.

II. La creatividad sigue siendo importante cuando hablamos de Historias.

Los stickers interactivos como el nuevo sticker "Quiz" representan formas novedosas en las que las marcas atraen a sus seguidores en un tipo de promoción de Instagram más interactivo y particular.

12. Considera realizar una campaña pagada.

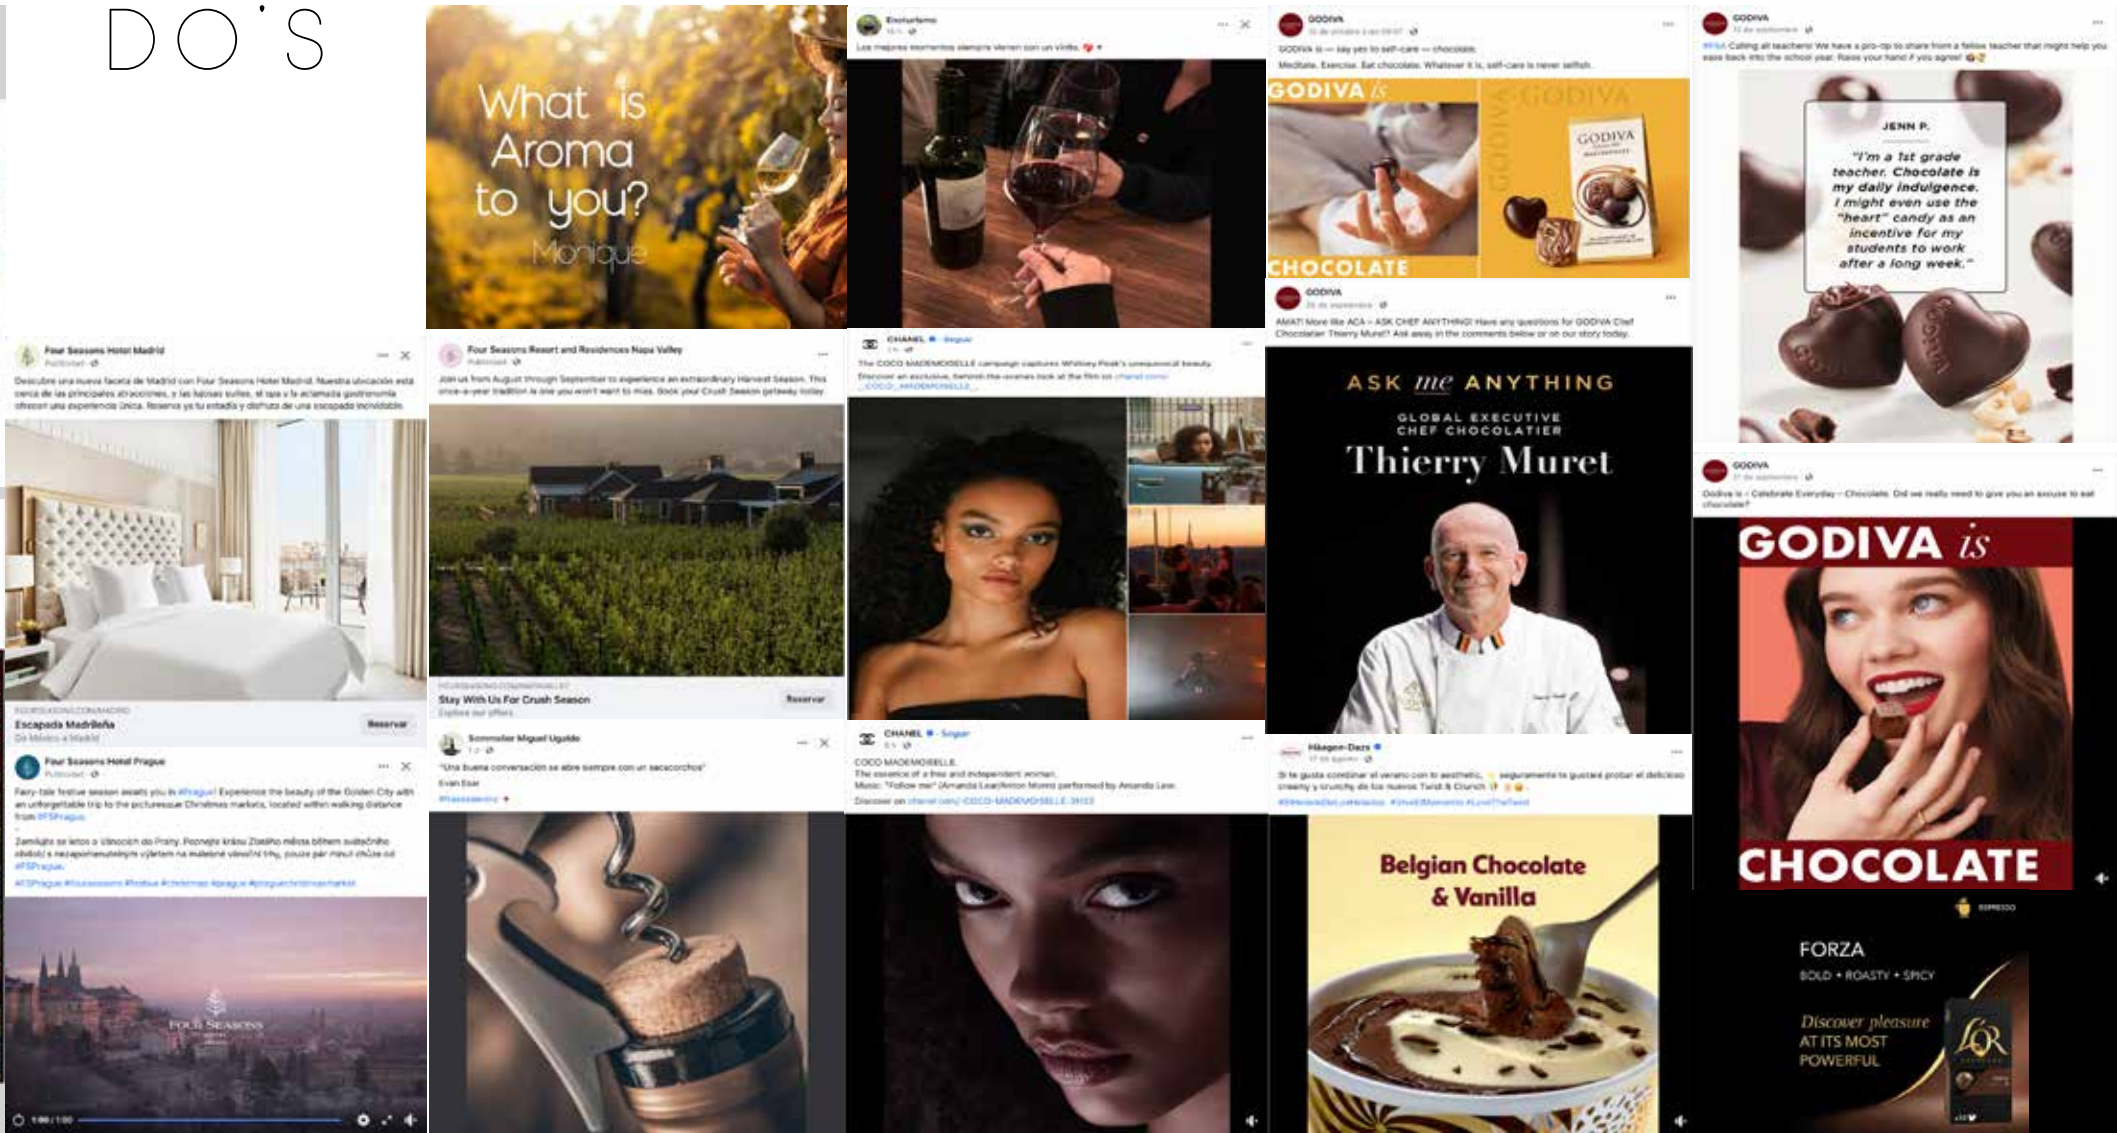

Las herramientas pagadas para Instagram hacen posible que obtengas información sobre el ROI de tu estrategia en general o comparar el desempeño de campañas individuales para optimizar en consecuencia. Destaca fácilmente tus mejores campañas por vistas de videos, conversiones, impresiones, interacción y más.
